

Java

```
class Solution {  
    public int largestPathValue(String colors, int[][] edges) {  
  
    }  
}
```

JavaScript

```
/**  
 * @param {string} colors  
 * @param {number[][]} edges  
 * @return {number}  
 */  
var largestPathValue = function(colors, edges) {  
  
};
```

C++

```
class Solution {  
public:  
    int largestPathValue(string colors, vector<vector<int>>& edges) {  
  
    }  
};
```
